Our bench stand is more than just an attractive addition to your kitchen décor. With its uniquely shaped tool holder, you will always have the kitchen tools you need close at hand. Creative kitchen tools for creative cooking! The bench stand contains three very useful kitchen tools.

The turner is your faithful friend beside the stove that you can rely time and time again in your cooking. Stirring up nice chili in the pan is a breeze with Björka's turner. And knowing that you are holding a locally produced, environmentally friendly product – probably the most climate-smart turner on the market – makes the food taste even better.

The wooden fork is perfect both for frying and mincing the minced meat for your Friday taco night and Saturday morning scrambled eggs.

With the stirring ladle, you can gently stir your stew, soup or sauce. Thanks to the hole in the ladle, the stew will mix nicely, while reducing the risk of spill over onto the stove.

NOTE! Should not be machine washed!

Measurements: 260 x 120 x 45mm

As standard, these are delivered with an engraved "Björka" logo as shown in the images. For a more unique product, you can instead choose your own logo.

Serve your salad in style!

A salad can be so many things: a simple splash of green to complement dinner, or a fresh, colourful and fantastic meal in itself. Whatever the occasion, your salad deserves to be served in style! With Björka's salad utensils, you also don't have to skimp on the vinaigrette, as one spoon has a milled drainage hole. Depending on the occasion, one half of the box can be used in two different ways. One side as a cutting board for bread, which has milled grooves for the breadcrumbs, and the other side as a serving tray for various trimmings for the salad.

With Björka's cutting board with a groove to hold a tablet, you can always have the recipe at hand. To reduce crumb spread and pooled juices, Björka's cutting board for bread has milled diagonal crumb grooves on one side and a milled groove all around for meat juices on the other side. Björka's cutting boards are, of course, made to be used and make the cooking experience more enjoyable. But they are also designed to blend with the interior décor in your kitchen when they are not in use. NOTE! Should not be machine washed!
